

Run marketing without a marketing team.

Nudgen scans your website, learns your brand voice, and runs
personalized email campaigns automatically.

We set it up. We keep it running. You stay focused on building.

THE PROBLEM

Marketing eats hours — or thousands of dollars.

Hiring a marketing team costs \$300–400k a year

A standard 3-person team — marketing manager, specialist, designer — runs ~\$300–400k AUD/year all-in. Out of reach for almost every SMB SaaS under \$2M ARR.

Or you pay — and keep paying as you grow

Klaviyo starts free but climbs to ~\$175/mo at 10k contacts, \$700+ at 50k. Mailchimp scales the same way. HubSpot Marketing Hub Pro is \$890/mo from day one. The "cheap" tools aren't cheap once you're actually growing. [Klaviyo](#) · [HubSpot](#)

And every tool is a blank canvas you have to figure out

Flow builders, segment editors, drip logic, A/B tests — Klaviyo, Mailchimp, HubSpot all hand you a powerful engine and assume you know what to send. SMBs don't need more buttons. They need a tool that **decides for them**.

THE SOLUTION

Email marketing, **made simple.**

Point Nudgen at your website. We learn your brand voice, suggest the campaigns to run, and send personalized emails — segmented automatically, no marketer required.

Scan & learn

We read your site — products, tone, audience — and build your brand profile in minutes.

Suggest campaigns

Welcome, win-back, upsell, seasonal — we recommend the right campaigns to run, ready to launch.

Send personalized

Every email tailored to each customer and segmented automatically. You approve, we send.

A \$72B market — and no one built it for SMBs.

TAM — DIGITAL MARKETING SOFTWARE

\$72B

Global digital marketing software market (2024). Growing to \$264B by 2030.

SAM — SMB DIGITAL MARKETING SOFTWARE

\$15B

SMB segment (~21% of TAM). GVR identifies SMEs as the fastest-growing segment in the market.

SOM — 3-YEAR TARGET

\$500K

~1,200 customers × ~\$35/mo blended ARPU — achievable with this raise

19.4%

CAGR 2024–2030 — a market compounding every year

AI-first tools are taking share from legacy suites. SMBs are the fastest-growing segment — and the most underserved. The window to become the default marketing layer for SMB SaaS is now.

TRACTION

Early stage. **Moving fast.**

COMPETITION

Giants exist. **None built for SMBs without a marketer.**

HubSpot

\$30B

MARKET CAP

Marketing Hub Pro starts at \$890/mo. Built for marketing teams with budget — not solo founders.

Klaviyo

\$9B

MARKET CAP (NYSE: KVYO)

~30% of e-commerce email. A flow builder for marketers who already know what to send.

Mailchimp

\$12B

ACQUIRED BY INTUIT, 2021

Cheap entry, but still a blank canvas. Scales fast with list size, AI-light.

Salesforce MC

\$250B+

PARENT MARKET CAP

Marketo, Pardot, Marketing Cloud — enterprise-only, four-figure SaaS, six-figure config.

BUSINESS MODEL

Simple SaaS. **Subscription revenue** that scales with usage.

HOW WE CHARGE

Monthly subscription per contact tier

Customers pay a flat monthly fee based on the number of contacts in their account. As they grow, we grow with them — built-in expansion revenue.

\$19 → \$39 → \$79 → Custom

Starter · Growth · Pro · Enterprise

PATH TO PROFITABILITY

Revenue milestone targets

End of 2026	\$150K ARR
End of 2027	\$500K ARR
Series A ready	2027

THE TEAM

Two builders who **lived this problem**

Nathan Nguyen

Co-founder

Data Scientist at Webjet.com.au.
Deep expertise in behavioural data & customer analytics — the exact signals that power Nudgen's brand-voice and segmentation engine.

Toan Nhu

Co-founder

Principal Software Engineer at VinGroup. Ex Senior Data Engineer at Tiki. Built data infrastructure at scale for two of Vietnam's largest tech companies.

REFERRALS

Know a SaaS founder or investor?

Make an intro. We are looking for people who understand the pain of running growth without a marketing team.

- SMB SaaS founders who want retention and lifecycle email handled for them.
- Investors who know SaaS, marketing automation, or AI workflow products.
