

Run marketing for your store without a marketing team.

For e-commerce business owners on Shopify and
WooCommerce. Nudgen learns your store, writes campaigns,
and sends personalized emails automatically.
We set it up. We keep it running. You stay focused on selling.

THE PROBLEM

E-commerce owners do the marketing themselves — or pay tools that still need a marketer.

Hiring a marketing team costs \$300–400k a year

A standard 3-person team — marketing manager, specialist, designer — runs ~\$300–400k AUD/year all-in. Out of reach for almost every independent e-commerce store.

Or you pay — and keep paying as you grow

Klaviyo starts free but climbs to ~\$175/mo at 10k contacts, \$700+ at 50k. Mailchimp scales the same way. HubSpot Marketing Hub Pro is \$890/mo from day one. The "cheap" tools aren't cheap once you're actually growing. [Klaviyo](#) · [HubSpot](#)

And every tool is a blank canvas you have to figure out

Flow builders, segment editors, drip logic, A/B tests — Klaviyo, Mailchimp, HubSpot all hand you a powerful engine and assume you know what to send. E-commerce owners don't need more buttons. They need a tool that **decides for them**.

THE SOLUTION

Email marketing, **made simple.**

Connect Shopify or WooCommerce. Nudgen learns your products, customers, and brand voice, then suggests campaigns and sends personalized emails — no marketer required.

Connect your store

Shopify and WooCommerce integrations are already live. We pull the store context needed to start fast.

Suggest campaigns

Welcome, abandoned cart, win-back, upsell, seasonal — we recommend the right campaigns to run, ready to launch.

Send personalized

Every email tailored to each customer and segmented automatically. You approve, we send.

A \$72B market — and e-commerce owners still need help.

TAM — DIGITAL MARKETING SOFTWARE

\$72B

Global digital marketing software market (2024). Growing to \$264B by 2030.

SAM — SMB E-COMMERCE MARKETING SOFTWARE

\$15B

SMB e-commerce segment (~21% of TAM). GVR identifies SMEs as the fastest-growing segment in the market.

SOM — 3-YEAR TARGET

\$500K

~1,200 customers × ~\$35/mo blended ARPU — achievable with this raise

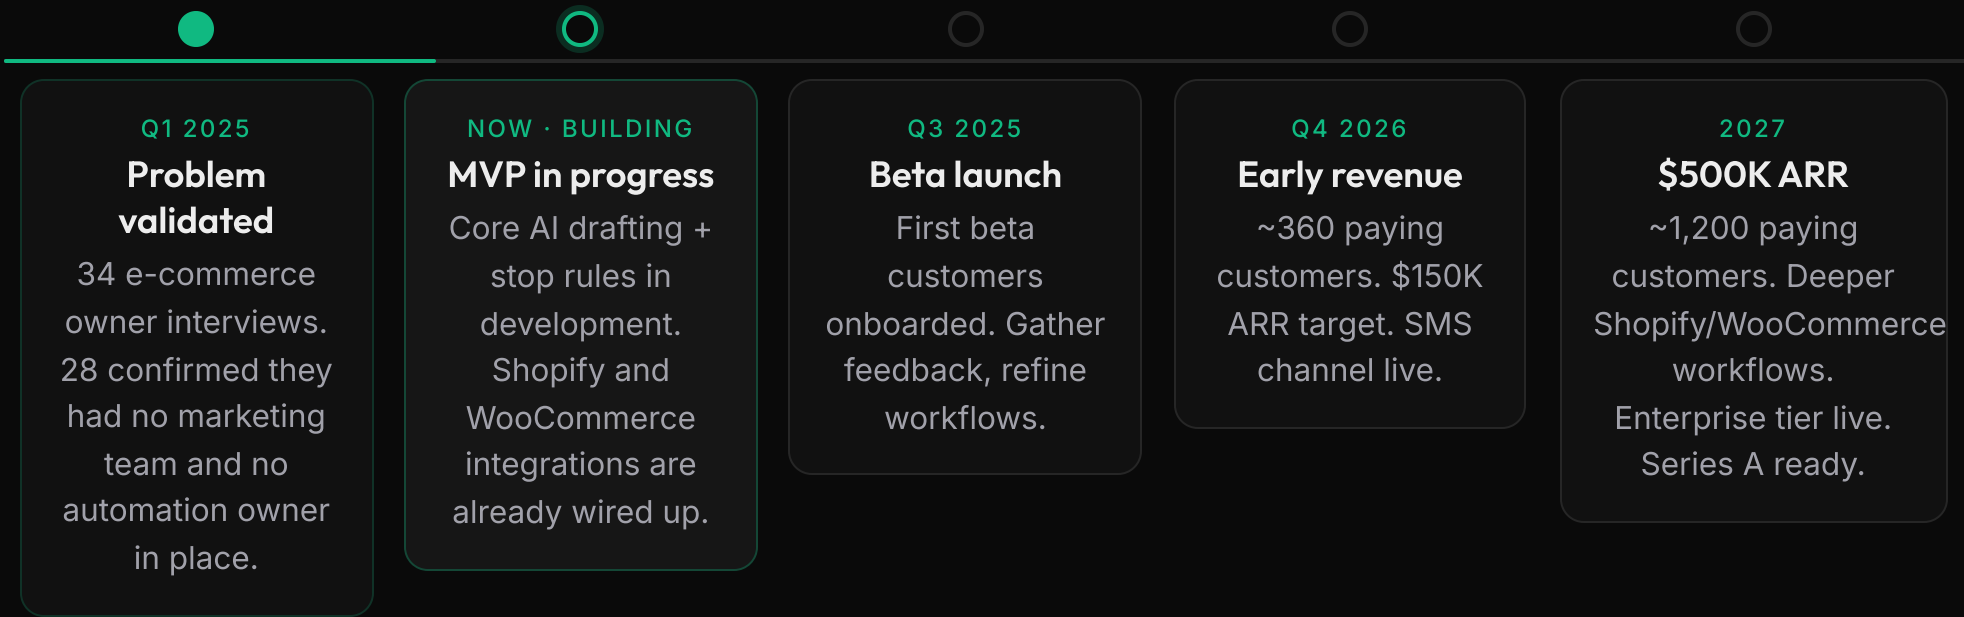

19.4%

CAGR 2024–2030 — a market compounding every year

AI-first tools are taking share from legacy suites. SMBs are the fastest-growing segment — and the most underserved. The window to become the default marketing layer for independent e-commerce stores is now.

TRACTION

Early stage. **Moving fast.**

COMPETITION

Giants exist. None built for e-commerce owners without a marketer.

HubSpot

\$30B

MARKET CAP

Marketing Hub Pro starts at \$890/mo. Built for marketing teams with budget — not independent store owners.

Klaviyo

\$9B

MARKET CAP (NYSE: KVYO)

~30% of e-commerce email. A flow builder for marketers who already know what to send.

Mailchimp

\$12B

ACQUIRED BY INTUIT, 2021

Cheap entry, but still a blank canvas. Scales fast with list size, AI-light.

Salesforce MC

\$250B+

PARENT MARKET CAP

Marketo, Pardot, Marketing Cloud — enterprise-only, four-figure software, six-figure config.

BUSINESS MODEL

Simple subscription. Revenue scales with store growth.

HOW WE CHARGE

Monthly subscription per contact tier

Customers pay a flat monthly fee based on the number of contacts in their account. As they grow, we grow with them — built-in expansion revenue.

\$19 → \$39 → \$79 → Custom

Starter · Growth · Pro · Enterprise

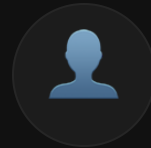

PATH TO PROFITABILITY

Revenue milestone targets

End of 2026	\$150K ARR
End of 2027	\$500K ARR
Series A ready	2027

THE TEAM

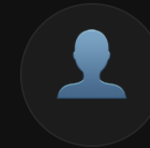

Two builders who **lived this problem**

Nathan Nguyen

Co-founder

Data Scientist at Webjet.com.au.
Deep expertise in behavioural data & customer analytics — the exact signals that power Nudgen's brand-voice and segmentation engine.

Toan Nhu

Co-founder

Principal Software Engineer at VinGroup. Ex Senior Data Engineer at Tiki. Built data infrastructure at scale for two of Vietnam's largest tech companies.

REFERRALS

Know an e-commerce owner or investor?

Make an intro. We are looking for people who understand the pain of running e-commerce growth without a marketing team.

- E-commerce business owners on Shopify or WooCommerce who want lifecycle email handled for them.
- Investors who know e-commerce, marketing automation, or AI workflow products.
